

## THE PACE IS SPEEDING UP

We are only one week away from the July 2<sup>nd</sup> deadline which gives us the right to strike or the employer the right to lock us out.

*Negotiations are intensifying*

The Negotiating Committee is working relentlessly to achieve a collective agreement that meets the needs of all CUPW members.

Work floor actions across the country are showing the employer that we speak with one strong voice.

The members of the Canadian Union of Postal Workers have a message for Canada Post:

*We want to NEGOTIATE!*

We deserve a collective agreement that recognizes the value of our work and includes better rights and protections.

*Together we're stronger!*  
*Together, towards a common purpose!*

Sylvain Lapointe  
Chief Negotiator – Urban Unit

George Floresco  
Chief Negotiator – Rural Unit
