Dear Brother Palecek:

Please accept this message of solidarity and strength as you and your members face off against an employer seemingly intent on a labour dispute.

We have been following with interest reports of the employer's proposal of a two-tier pension plan and applaud your strong response to this attack on your defined benefit pension plan.

More than 635,000 CUPE members across Canada stand in solidarity with CUPW members in your struggle for a fair collective agreement and for the protection of a vital public service.

While we remain hopeful you will reach an agreement, we acknowledge that the employer seems to have other plans. Please don't hesitate to contact us if we can be of assistance in the coming weeks.

In solidarity,

MARK HANCOCK
National President

CHARLES FLEURY
National Secretary-Treasurer
