March 12th 2022; Action for Just Transition!

Join events across Canada to show support for a Just Transition! Justice for workers, justice for the environment!

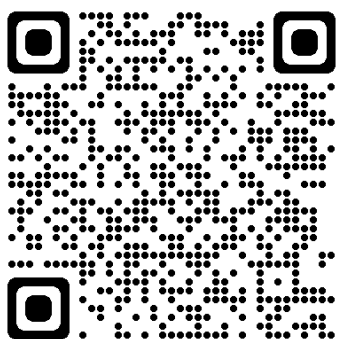

Postal workers have a plan to fight climate change and deliver vital new services to every part of the country. Elder check-ins, low-fee postal banking, high-speed internet, and climate-friendly delivery with a fleet of electric vehicles. Welcome to the postal service of the future.

The climate emergency is upon us. With the inevitable transition from fossil fuels to renewable technology, there needs to be a Just Transition to ensure workers are not left behind. The Delivering Community Power campaign envisions a Just Transition for the postal service.

Three years ago, the Government of Canada promised to create a Ministry for a Just Transition – and we have not seen any meaningful progress. On March 12th, civil society groups are gathering to send a clear message that the time is now. Let's show our support for all workers by joining the action.

What can you do about it? How can **you** get involved?

On **March 12th**, show your support by raising a CUPW flag and joining one of over 25 groups in demanding action at an event in your community:
