Dear Steve,

Considering the serious situation in Canada, we come with the following proposal to you: to organise protest pickets in front of the Canadian embassy in all countries where there is UNI affiliates, under the coordination of UNI of course. I want to inform you that in our Executive Committee in December we took this decision. So, at your signal, we be ready for action.

In solidarity,

President Denis Lemelin

Dear colleagues,

Postal Workers' Union of Romania is with you, our brothers suffering Canadians. This year the Romanian National Post Company management decided the dismissal of 4,000 postal workers and despite our efforts they have managed the dismissal. Like you, management announced the start of a long process of franchising.

The destruction of traditional mail, depriving citizens of cheap and decent postal services seems to be a plan that has no border, so we do the next proposal: when you decide it's time, along with UNI, to organize pickets in front of the Canadian embassy in all countries where there is UNI affiliates. In our last National Operative Bureau we adopted this decision so we are waiting for your call.

Finally, we want you to know that all our 20,000 members from Romania are with you in this fight and they are praying for you.

In solidarity,

Cristian IANCU
General Secretary
